

RPW 2015 Class C

Group Assignment for Meeting 9

Read the instructions well before you start working. Good luck! 😊

1) Study *Pedoman Penulisan Skripsi* for Literary Studies (*Skripsi Sastra*) at Study Program of English, Faculty of Cultural Studies, especially the Chapter II: *Review of Related Literature & Research Method*. (You need to study about how to write Chapter I as well because they are closely related.)

Get the latest version of the book on FIB website.

Take notes about:

- a) The contents of Chapter(s) & their functions
- b) How to write it in a proposal, including the technical rules
- c) Other information that you find necessary/useful

2) Find two student theses (on literature) at SAC. Study the Chapter I & II.

- a) Write the outline of Ch I & II. Include some key words/ key explanation of the contents
- b) Discuss whether the theses have been written in accordance to the guidelines in the *Pedoman* and meet the requirements of Ch 1 & 2 that have been discussed in the RPW class. Show the evidence.

- c) Write your report on power-point slides. Send them to arissiswanti@ub.ac.id by Friday, 1 May 2015 before 4 pm. Use this email subject & file name: RPW 2015_SAC study_group number
- d) Report your findings in class discussion in meeting 10. (I will randomly choose which groups to present, so please prepare to present your findings in a 15-20 minute's presentation. There will be discussion afterward.)

Notes:

1) Groups:

- (1) Gilang, Novia
- (2) Dinda, Febriyana, Rifdika
- (3) Andreas, Faizal, Ridwan
- (4) Jeremy, Devin, Filipus
- (5) Abir, Ika, Yogi
- (6) Della, Yunisa, Dimas,
- (7) Saiful, Rizqi, Dedy
- (8) Elfira, Lidia, Bagus
- (9) R. Hariyani, Ida, Laili
- (10) Bambang, Dimas, Ade
- (11) Achmad, M. Fitra, Aditya
- (12) The other students can from their own group of 2-3 people.

2) You have to write the Chapter II of your research proposal and present the proposal in class in the next meetings before the final exam. Since time is limited, you can volunteer to present your proposal (especially if you plan to do this research for your thesis, so that you can have more feedback). If there are more slots available, I will randomly pick students to do their presentations.
